Dental Implants • Dental Surgery • Cosmetic Dentistry • Periodontal Services • Endodontics

ANESTHESIA SURGICAL PRE - OP INSTRUCTIONS

DIET

You may consume **clear liquids up to 3 hours** prior to anesthesia. Within 3 hours of anesthesia, **only prescribed medications** may be taken.

CLOTHING

Comfortable clothing is recommended. Short sleeve shirts or shirts with sleeves that roll-up easily are appreciated. Flat-soled shoes are beneficial.

JEWELRY

Watches and bracelets should be removed prior to anesthesia. **Nail polish** should be completely removed.

ESCORT

A **responsible adult** must accompany you home following the anesthesia. You must not drive or walk home.

ARRANGEMENTS

You must make appropriate arrangements to provide for **bedrest** the day of your anesthetic appointment (NO WORK, NO DRIVING, NO OPERATING MACHINERY etc).

Should you have any questions please do not hesitate in contacting Dr. McGirl.
